## FINANCIAL MARKET STRUCTURE EDUCATION

---

### University Career Services

#### FinTech is here to stay

In recent years, technology has transformed global financial markets. The new landscape is dominated by digital solutions that have disrupted the dynamics of major financial systems. Those individuals that can master the mechanics of financial technology will have ample professional opportunities.

#### Are your students ready?

To best prepare students for a future career in Finance, they must have the training and support to develop a deeper understanding of financial market structure and the role that technology plays in today's markets.

#### ViableMkts

A team of financial market structure experts with experience derived from leadership positions at major investment banks, electronic trading platforms, exchanges, and technology vendors.

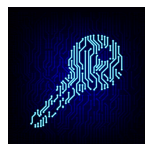

#### Financial Technology Career Development

ViableMkts provides an innovative curriculum that can help students of all academic backgrounds master the mechanics of financial market structure and technology. Our services include:

- On-Campus Interactive Seminars
- Online Training
- Individual Career Consultations

#### Equipping your students with the keys to the future

We support your efforts to help students successfully navigate the challenging environment of financial services employment. Through our service, your students can build a strong foundation of knowledge and build their skills to benefit from innovation.

Our program is led by Chris White, the founder and CEO of ViableMkts.

Mr. White has over 18 years of experience in financial markets and management positions at Barclays, Goldman Sachs and MarketAxess.
